

# Ruckman Park UPDATE

Please note that the Roller rink boards at Ruckman Park are being removed this week.

The asphalt court for Pickleball and Basketball will remain untouched for now.

The plan in place- funded by Open Space monies is to put 3 permanent pickleball courts where the current roller rink "footprint" is, along with a picnic sitting area for residents to enjoy some outdoor relaxation.

In addition we will be installing NEW lights - for the tennis courts and the pickleball playing area. The ballfield will NOT have lights added.

The timing of these projects will be based upon when the borough can get the best prices for paving etc. It will most likely be some time next year, timing tbd.

We are asking all Closter residents to be patient and understand that this will be a great new addition to the residents in the town.
