4/17/20

Parents, here is an update on the spring rec season for baseball and Softball for Closter/Demarest/Haworth children.

Due to the Governor of NJ canceling school until the minimum date of May 15th, the Tri-Town Baseball Softball committee have decided to put on hold INDEFINITELY any spring/summer baseball season.

That being said, we feel that it is best to refund everyone their registration fees that they already paid for the spring 2020 season. Refunds will start to be sent this week for Closter/Haworth & Demarest children. You will receive an email from CommunityPass with a statement of detailed transactions when the refund has been issued back to your credit card. But please note that this is going to take some time as each refund is done individually

We are hoping that we WILL be able to offer something for the kids in the coming month(s) but we feel it is best to start from scratch if we do, and to refund the current registration fees now.

PLEASE HELP- URGENT REQUEST

We are asking for your support in filling out this quick survey below so that we can get "an inventory" of the kids that will be around for the summer and that will be interested in playing baseball softball at some point in time. It is very important that we get everyone to fill out this survey form as there are also questions tied to TIME LINE of a proposed season. Nothing is firm yet, but with the current state of affairs we are considering having a program that will run into July and maybe even the first couple of weeks of August? PLEASE take the time to fill out this form.

We do feel strongly that the children will need SOMETHING eventually.... to get back to a sense of normalcy. We hope that everyone remains safe during these difficult times.
